Residential and Commercial Skylights and Sun Tubes
Design with Natural Light
Skylights bring all the benefits of natural light directly into your home, dramatically transforming any room, helping you save on energy costs and improving your health and well being. For smaller projects and areas where traditional skylights will not fit, Sun Tubes offer the ideal solution, bringing natural light into virtually any space.

- **Transform your home**
  Create the feeling and sensation of spaciousness without adding to your square footage. Skylights and Sun Tubes transform neglected spaces into living areas, opening your home to more pleasurable living.

- **Improve your health & well being**
  Exposure to daylight has been proven to benefit emotional and physical health. Skylights and Sun Tubes bring the benefits of sunlight into your home, blocking harmful UV rays, optimizing daylight and reducing glare.

- **Save on energy costs**
  Skylights and Sun Tubes help reduce the need for electrical lighting and ventilation systems. That’s good news for the environment and your pocket!

- **Fresh air circulation**
  Venting Skylights provide natural ventilation, letting warm air escape and cool air circulate. An excellent energy efficient alternative to fans and air conditioners for removing VOCs (volatile organic compounds), odors and humidity.

- **Easy installation & maintenance**
  Skylights are a quick, easy and affordable way to transform your home. Columbia Skylights use state of the art LoE® 366® glazing technology that provides low maintenance weather tight performance for years.

The Columbia Skylight Advantage
From humble beginnings over 50 years ago, Columbia has grown to become Canada’s largest manufacturer of residential and commercial skylights. Since 1955 we have maintained our traditions of precision engineering and craftsmanship to deliver premium quality skylights that revolutionize home life quality. Our immaculate track record has made us the brand of choice for architects, contractors, roofers and homeowners.

- **Why Columbia...**
  - Made in Canada since 1955
  - Most complete skylight product line in Canada
  - Energy Star® qualified and built with the harshest climates in mind
  - Our customers have more choices...
    - The industries largest selection of standard skylight sizes
    - 7 Glass and 3 Acrylic or Polycarbonate glazing options
    - 6 skylight cap frame colors
    - Unbeatable custom capability, any model, any size, any glazing option
    - 20 year warranty on sealed glass units

Quite simply, you will not find a better selection of quality skylight products or a more complete line of competitively priced products and accessories to meet your needs.

- **Green Friendly**
  Columbia Skylights support sustainability by reducing our environmental footprint through the recycling of raw materials, eliminating over-packaging, lean manufacturing techniques and by producing energy efficient products that meet Energy Star® requirements.
Choosing your Skylight

1. Roof Type?
   Columbia Skylights are designed to fit homes with 16" and 24" on centre rafters or trusses. Skylights can be installed on asphalt or fiberglass shingles, slate, cedar shakes, concrete and Spanish tile, metal roofs and rubberized membrane - EPDM.

2. Fixed or Venting Skylights?
   Fixed and Venting models available in Self Flashing, Curb Mount and Wood Deck Mount Skylights. Venting skylights can be operated manually or electrically. See page 6 for more information on venting skylights.

3. Sloped or Flat Roof application?

Venting Skylights

Available on Self Flashing, Curb Mount and Wood Deck Mount Skylights

At the push of a button or flick of a switch you are in charge with fresh air and temperature control. Columbia’s electric venting skylight kits are designed by Truth Hardware™. Choose from our venting electric Elite, Deluxe and Standard kits.

**VE Elite**
- Load rated for a total skylight weight of **160lbs**
- LED remote controls an infinite number of skylights
- Built in thermostat opens skylight based on room temperature
- Create up to 9 separate skylight groups for simultaneous control
- Each group can control an infinite number of skylights
- Corrosion resistant rain sensor
- Decorative cover for skylight motor

**VE Deluxe**
- Load rated for a total skylight weight of **90lbs**
- Slimline remote allows control of up to 4 skylights
- Rain sensor closes the skylight at the first sign of moisture
- Decorative cover for skylight motor

**VE Standard**
- Load rated for a total skylight weight of **90lbs**
- Wall switch controls up to 4 skylights
- Wall switch designed for a single gang electrical box
- Decorative cover for skylight motor

Venting Manual Skylights

Available on Self Flashing, Curb Mount and Wood Deck Mount Skylights

Open and close your skylights manually. Columbia offers a standard crank handle for skylights within reach and a telescopic pole option for out of reach applications. Telescopic poles come with an adapter and are available in two sizes:

- **4ft-6ft** and **6ft-10ft**

Self Flashing Skylights

Ready to mount with their own built in curb and flashing. Columbia’s self flashing skylights are designed for quick and easy installation. Offering the lowest profile from the Columbia Skylight range, the self flashing model compliments your roof line, offering a sleek, integrated, professional finish.

1 **Durable Aluminum Cap**: Baked brown enamel finish
2 **Base Frame**: Thermally broken white PVC base frame
3 **Curb and Flashing**: Built in maintenance free white PVC curb and flashing
4 **Condensation channel**: 4 sided channel with weep holes in each corner

Aluminum Cap Finish: Baked brown enamel finish standard. Available in the following colors:

- Rideau Brown (Standard)
- Black
- White
- Charcoal Grey
- Sandalwood
- Mill Finish

**OVSF-E** Venting Electric Self Flashing Skylight

- Available in three venting electric options:
  1 Elite
  2 Deluxe
  3 Standard (See page 6)
- Available in glass and acrylic (See page 18)
- Includes removable bug screen
- Energy Star® qualified
- Skylight Blinds available (See page 16)

**OVSF** Venting Manual Self Flashing Skylight

- Available in two venting manual options:
  4 Crank handle
  5 Telescopic pole (See page 6)
- Crank handle is standard
- Optional Telescopic pole including hex ball adapter available in **4ft-6ft** or **6ft-10ft**
- Choice of glass and acrylic (See page 18)
- Includes removable bug screen
- Energy Star® qualified
- Skylight Blinds available (See page 16)

**VSF** Fixed Self Flashing Skylight

- Available in glass and acrylic (See page 18)
- Energy Star® qualified
- Skylight Blinds available (See page 16)

Minimum 3:12 roof pitch required
Curb Mount Skylights

Recommended by roofing professionals as the optimum choice for long lasting, trouble free installation, Columbia’s curb mount skylight is the preferred skylight mount for any type of roof.

1 Durable Aluminum Cap: Baked brown enamel finish*
2 Installation: Outside fastening as standard. Inside fastening also available.
3 Base Frame:
   a Thermally broken white PVC base frame
   b Thermally broken aluminum base frame
4 Condensation channel: 4 sided channel with weep holes in each corner
5 Curb:
   a Can be installed on a 2 x 4, 2 x 6 or 2 x 8 curb
   b Can be installed on a 2 x 4, 2 x 6 or 2 x 8 curb - Requires a full 2” wide curb
6 Glazing: 7 glass & 6 acrylic or polycarbonate glazing options (See page 18)

*Baked brown enamel exterior aluminum cap standard. Available in:

- Rideau Brown
- Black
- White
- Charcoal Grey
- Sandalwood
- Mill Finish

### OVC-E Venting Electric Curb Mount Skylight

- Available in three venting electric options: 1 Elite 2 Deluxe 3 Standard (See page 6)
- Available in glass and acrylic (See page 18)
- Includes removable bug screen
- Energy Star® qualified
- Skylight Blinds available (See page 16)

### OVC Venting Manual Curb Mount Skylight

- Available in two venting manual options: 4 Crank handle 5 Telescopic pole (See page 6)
- Crank handle is standard
- Optional Telescopic pole including hex ball adapter available in 4ft-6ft or 6ft-10ft
- Choice of glass and acrylic (See page 18)
- Includes removable bug screen
- Energy Star® qualified
- Skylight Blinds available (See page 16)

### VCM Fixed Curb Mount Skylight

- Columbia’s most popular skylight
- Available in glass or acrylic (See page 18)
- 38 standard glass sizes
- 71 standard acrylic sizes
- Energy Star® qualified
- Skylight Blinds available (See page 16)

### VCM-P Fixed Curb Mount Pyramid Skylight

- Brings distinct architectural flare into your home
- Available in acrylic pyramid - double and triple glazed
- Can be installed on sloped or flat roofs
- Available in inside and outside fastening
- Can be installed on all types of site built curbs

### AVM - OF Curb Mount Aluminum Frame Skylight

- Ideal for larger skylights and commercial applications
- Aluminum thermally broken heavy duty base frame
- Sloped condensation gutter for positive drainage
- Requires a full 2” wide curb
- Fastens from the outside
- Available in glass or acrylic and fixed or venting models
**Wood Deck Mount Skylights**

A premium deck mounted skylight which includes a Douglas Fir curb, PVC base frame and extruded aluminum cap. The Canadian Douglas Fir curb is:

- Not primed
- No Finger joints
- Premium Quality
- Natural wood

**1 Curb:** Premium 1" x 5.5" natural Douglas Fir recesses into skylight opening

**2 Durable Aluminum Cap:** Baked brown enamel finish

**3 Base Frame:** Thermally broken white PVC base frame

**4 Condensation Channel:** 4 sided channel with weep holes in each corner

---

**CVS-E Venting Electric Wood Deck Mount Skylight**

- Available in three venting electric options: 1 Elite 2 Deluxe 3 Standard (See page 6)
- Available in glass (See page 18)
- Includes removable bug screen
- Energy Star® qualified
- Skylight Blinds available (See page 16)

---

**CVS Venting Manual Wood Deck Mount Skylight**

- Available in two venting manual options: 4 Crank handle 5 Telescopic pole (See page 6)
- Crank handle is standard
- Optional Telescopic pole including hex ball adapter available in 4ft-6ft or 6ft-10ft
- Available in glass (See page 18)
- Includes removable bug screen
- Energy Star® qualified
- Skylight Blinds available (See page 16)

---

**CFS Fixed Wood Deck Mount Skylight**

- Available in glass (See page 18)
- Energy Star® qualified
- Skylight Blinds available (See page 16)

---

**Roof Access Skylights**

The ideal solution to gain outdoor access to a rooftop for outdoor living spaces or services. The roof access skylight can be installed on a flat or sloped roof curb application.

**Ideal for:**
- Roof Gardens
- Roof Patios
- Emergency Exits
- Balcony Access
- Eco-Roofing
- Service Access

**RAS Roof Access Skylight**

- Available in glass or acrylic dome
- Acrylic dome suitable for flat roof applications
- Glass pitch minimum 2:12
- Internally welded one piece thermally broken white aluminum frame with pull down handle
- Heavy duty opening gas hydraulic cylinders
- Choose from 6 frame aluminum cap colors

---

**Circular Roof Dome**

Delivers a dramatic departure from the ordinary, opening your home, lobby or reception area to a lightwell affording a beautiful overhead pool of sunlight.

---

[www.columbiaskylights.com](http://www.columbiaskylights.com)
Columbia’s residential Sun Tubes bring the natural light of the sun to virtually any space in your home. Installed on any roof in under two hours, the low profile acrylic dome captures sunlight on your roof from dawn til dusk.

- Kit includes: Dome, roof jack, 4ft. of light tube and a prismatic or soft white diffuser
- Available in 4 sizes: 10” 13” 18” 21”
- Flat and Sloped roof models available
- Quick, simple installation for any shingle or shake roof
- A source of natural light where regular skylights cannot be installed
- See page 14 for residential sun tube accessories

A. Sheet Rock
B. Transition Box (Drop ceiling offices)
C. Warehouse
Sun Tube Accessories

Light Tube Extension (24”)
- Available on all Sun Tubes – 10”, 13”, 18”, and 21”
- Constructed from the same reflective material as the light pipe
- Tek screws and foil tape included

Elbow
- Available on all Sun Tubes – 10”, 13”, 18”, and 21”
- Fully adjustable from 0-45 degrees
- Constructed from the same reflective material as the light pipe
- Tek screws and foil tape included

Electric Light Kit
- Available on all Sun Tubes – 10”, 13”, 18”, and 21”
- Can be installed in place of previous light fixture
- Holds standard, CFL or LED light bulbs
- Installs directly into the lower portion of the light pipe
- Wired to wall switch for operation
- Straight forward installation, requires basic wiring skills

Remote Dimmer Kit
- Available on all Sun Tubes – 10”, 13” and 21”
- Kit: Remote, dimmer panel, light pipe and 120 volt rpm motor
- Installed in the lower portion of the light pipe
- Includes receiver that must hang vertically on nearby stud
- Dimmer may also be hard wired for wall switch

Tile Skirt
- Available on 10”, 13” and 18” Sun Tube models
- For sloped tiled roof applications
- Install over the sun tube flashing for optimal seal

Turret Extension
- Available on 10” and 13” Sun Tube models
- Used when installing on high profile S tiles
- Slip the turret over flashing lip to accommodate the S tiles

Flashing Kits and Underlayment

FKCM  Curb Mount Flashing Kit
- For sloped asphalt, shingle or wood shake roofs only
- Not suitable for flat roofs. Must use cant strip and customized flashing
- Compatible with Columbia’s Fixed and Venting Curb Mount Skylights
- Suitable for 2’ x 4’ or 2’ x 6’ curb
- Features pre-cut aluminum steps and pre-formed head and sill flashings
- Includes counter flashing
- Custom sizes available
- Baked enamel brown finish as standard
- Black, Charcoal Grey, White and Mill finish flashing kits also available

FKRW  Wood Deck Mount Flashing Kit
- Wood Deck Mount skylights (CFS & CVS) require Columbia flashing kit
- Warranty on Wood Deck Mount void unless installed with FKRW kit
- Kit includes roofing underlayment for use between roof and curb
- Baked enamel brown finish as standard
- Black, Charcoal Grey and White flashing kits also available

SRU  Skylight Roofing Underlayment
- Self-adhesive membrane
- Eliminates air currents and water infiltration
- 25mil thick synthetic roof underlayment made of polyolefin
- Measures 12’ x 21’
- UV protected, anti-skid surface allows for fast and safe installation
- May be installed without primer
- Self adhesive activated by release sheet
Columbia Skylight Blinds

Control the amount of light and heat entering your skylight with a Columbia Skylight Blind. Offering great value and style at an attractive price, transform any room with one quick and easy installation. All fabrics are constructed of polyester which help prevent staining and water absorption. Columbia Skylight Blinds are available in three fabric options:

- Privacy
- Light Filtering
- Blackout

Why Skylight Blinds?

- Control the amount of light & heat entering a room
- Save on energy costs - both heating and cooling
- Skylight Blinds provide privacy and style
- Reduce fading on carpets, fabrics and furniture
- Cut out over 90% of harmful UV rays
- Easy to install: fasten brackets & snap the blind into the lightwell
- Easy to use: smooth operation with telescopic pole or manual handle

Energy Efficient Skylights

Columbia manufactures the widest range of Energy Star® qualified skylights in Canada. By choosing to install Energy Star® qualified Skylights or Sun Tubes you save on energy costs and protect the environment. Find out what zone you live in and choose an Energy Star® glazing option that meets the requirements.*

What are Canada's Energy Star® Zones?

<table>
<thead>
<tr>
<th>ZONE A</th>
<th>ZONE B</th>
<th>ZONE C</th>
<th>ZONE D</th>
</tr>
</thead>
</table>

*Climate zones based on average annual temperature

What makes a Skylight Energy Efficient?

1. **U Factor**: Indicates the rate of heat loss. The lower the U Factor the greater a skylights resistance to heat flow.
2. **SHGC** (Solar Heat Gain Coefficient): The fraction of incident solar radiation admitted through a skylight. Expressed as a number between 0 and 1, the lower a skylight's solar heat gain coefficient, the less solar heat it transmits.
3. **VT** (Visible Transmittance): The amount of visible light transmitted. A high VT is desirable to maximize daylight.

The Columbia Advantage

Built with the harshest climates in mind...

- 6 Energy Star® qualified glass glazing options
- Residential Sun Tubes Energy Star® approved in all four Canadian climatic zones ABCD
- LoE³ Triple glazed and LoE³ i81 are the skylight industry's most energy efficient glazing options, helping you maximize savings and reduce your green footprint.
- For technical information on the energy efficiency of any of Columbia skylight or sun tube model visit: www.columbiaskylights.com or www.oee.nrcan.gc.ca
Glass

Columbia uses state of the art LoE³ 366® technology to deliver the industry's widest range of Energy Star® qualified glazing options.

**Tempered/ Tempered** - Five times stronger than ordinary glass
- All glass units include both panes tempered

**Tempered/ Laminate** - A plastic interlayer is added for additional safety
- Glass fragments adhere to plastic interlayer when broken
- Choose from clear or white translucent laminate glass

Laminated Glass
- Safety Glass
- All skylights are available with laminated layer.

Acrylic

**Clear**: Allows the maximum amount of visible light

**Bronze**: Allows a clear view through the skylight while reducing the amount of visible light and solar heat gain. Results in softer room lighting.

**White**: Offers privacy along with reduced visible light and solar heat gain.

Polycarbonate

A tough plastic that exhibits outstanding strength, often used in commercial applications where lower flame spread ratings are required.
